Storage POD

Introduction

The new USB 3.0 Storage POD elevates external storage to a new level. Three times faster than USB 2.0 with three times the available bus power, the 500GB Storage POD truly delivers on performance. The Storage POD hits speeds of over 90 MB/s when plugged into a USB 3.0 port, yet remains fully-backward compatible to USB 2.0 for about the same price as a USB 2.0 external drive. Completely powered by the USB bus, the Storage Pod requires no external power adapter or drivers to install, making it the perfect traveling companion. The USB 3.0 Storage POD is ideal for travelers, creative professionals—and those who simply want more tier 1 storage. The Storage POD is simply the next generation of optimal external storage, without the compromises.

Features

- USB 3.0 - unlock the true performance of your drive
- Portable – Compact, Bus Powered Design
- Capacity – 500GB HDD
- Compatible – Supports USB 3.0 & USB 2.0*
- Durable – Anti-shock (6-axis) enclosure

Specification

- Device : USB 3.0 Storage POD™
- Interface : USB 3.0
- Capacity: 500GB
- Dimensions (LxWxH) :129 x81 x 15 mm
- Seq. Read/ Write: 90 MB/s, 55 MB/s
- Storage Media : 2.5'' SATA HDD
- Power Supply : 5.0Vcc DC Supplied from the USB port(s)
- Operating Temperature : 5°C - 55°C
- Operating Systems supported : Windows 7, Vista, XP
  Mac OS X 10.4 or later (only USB 2.0 currently supported)
  Linux Kernel 2.6.31 or later
