

## ■ Super Talent Overclocked DDR4

The F28UB8G19 is an overclocked 8GB DDR4-2800 memory module that supports overclocked speeds and aggressively tuned latencies to deliver exceptional performance. The F28UB8G19 is best suited for power users, gamers, and overclockers.

This module has been tested and is guaranteed to operate at the specified speeds to ensure ultimate reliability, compatibility and performance

### Ordering Information

|           |                                |
|-----------|--------------------------------|
| F28UB8G19 | 8GB DDR4-2800 / PC4-22400 CL19 |
|-----------|--------------------------------|

### Test Specs

|              |   |
|--------------|---|
| Test CPU     | Core™i7-5930K, i7-5960X, i7-6700K               |
| Test Voltage | 1.35V   |
| Motherboard  | ASUS X99-DELUXE, ASUS X99-PRO, ASUS Z170-DELUXE |

These modules are tested and guaranteed to operate at these specs

### Module Features

|           |                                    |
|-----------|------------------------------------|
| Ranks     | Dual Rank                          |
| Type      | Non-ECC Unbuffered                 |
| Package   | 288-pin DDR4 DIMM                  |
| Latencies | 19-19-19-44 (CAS, tRCD, tRP, tRAS) |
