SUPER * TALENT THE BEST MEMORY USB 3.0 Data Guardian Datasheet

1.0 INITIAL SETTING

For the new Data Guardian, initial set is required if you intend to protect your data.

1.1 The first use of the Data Guardian, both CD drive and DG data partition show up on the computer as below. Since there is no password set, the data partition is not protected, and you can freely access the data in it.

1.2 To protect the data partition, double click on the CD drive to open the DataGuardian software.
